^C
abhinav19006@iiitd-System-Product-Name:~/Foundation-of-Parallel-Programming$ QUILL_WORKERS=4 ./nqueens 12
OK
NQueens(12) Time = 0.471506sec
abhinav19006@iiitd-System-Product-Name:~/Foundation-of-Parallel-Programming$ █

```

The above is the speedup graph for workers 1 to 4 and input 12.

As observed, speedup lies in the region of sub linear speedup
